ProTalk[®] DIGITAL

Digital Portable Radios

The NX-P1200NVK and NX-P1300NUK portable radios harness the proven NXDN protocol to enhance coverage or FM analog for simple operations. They allow the combination of analog and digital channels in the same zone. This gives you the ability to easily migrate to digital at your own pace, or operate more effectively in a mixed environment where groups of users have different needs or solutions.

MOTOTRBO™ CP100d SERIES PORTABLE RADIOS

EASY TO USE, EASY TO MIGRATE

Simple and effective for the light user who values ease and efficiency.

When choosing cost-effective two-way portable radios, you do not have to compromise features. The MOTOTRBO CP100d Series is a range of practical, entry-level digital radios for professionals wanting to communicate with greater ease and efficiency.

The affordable CP100d radios offer all the benefits of digital technology – up to 35% longer talk-time, twice the voice capacity in a 12.5 kHz licensed channel, wider radio coverage, and superior audio. In digital mode, your MOTOTRBO radio provides clearer voice communications throughout the coverage area than analog radios, rejecting static and background noise.

Digital radios outperform analog radios for demanding or extended work shifts, and ensure voice communications are easily and clearly understood. The CP100d is a versatile option for those requiring additional radio features to meet increasing communication needs, while lowering operating costs.

The CP100d Series is easy to use and makes it easy to migrate from analog to digital. Your radio users can operate and communicate on their new digital radios on the job, as your business transitions to digital technology. You can also choose the analog-only version of the CP100d radio and unlock the capabilities of digital when the time is right with a simple software upgrade. Now you can improve the efficiency of your operation with easy-to-use voice communication that's right for you.

Experience MOTOTRBO digital voice communications, trusted by millions of users for exceptional voice quality and exceptional performance — meaning a more productive workforce and lower operating costs for your business.

FEATURES

- Analog / Digital Voice Communications
- Dual Capacity Direct Mode
- Transmit Interrupt (Decode Only)
- Pre-Programmed Text Messaging
- Voice Announcement
- Digital Mobile Radio (DMR) Standards Compliant¹
- IP54 Rated

¹ Features only available in Digital mode

i SERIES
BD302i

Mailer Special at \$189.00

- DMR Digital Clarity and Range
- Can be Operated in Analog or Digital Mode
- Very Compact at 3.9" High and 4.8 oz
- 3 Year Factory Warranty
- 48 Custom Programmable Channels
- 2 Watts of UHF Transmit Power
- High Capacity 2200 mAh Li-Ion Battery
- Traditional Rotary Channel Knob
- Charger (USB), Battery, Belt Clip, Antenna

BD302i UHF Two-Way DMR Radios

Compact and lightweight BD302i Series radios provide cost-effective and easy-to-use radio communications with excellent performance

The Hytera BD302i is an entry-level, grab-and-go digital radio that requires minimal training for users.

Weighing only 5 ounces, the lightweight and compact design makes the BD302i easy to carry and operate for long shifts.

The BD302i has 2W of output power, which provides suitable range for small and medium workplaces like retail, hospitality, and single-site school campuses.

The BD302i supports the 400 to 470MHz UHF frequency range with 48 Channels and 3 Zones (16 Channels per Zone).

Excellent Performance and Value

The BD302i provides reliable communications, crystal clear digital audio, powerful Li-Ion battery for up to 16 hours of operation, and excellent value for the money.

Rugged and Reliable

The BD302i meets MIL-STD-810-G for shock and vibration, and IP54 for dust and water resistance to guarantee reliability in harsh environments.

Analog or Digital

Many radio manufacturers are discontinuing their legacy analog radio systems, and the BD302i can be configured to operate in analog or digital mode to provide a simple and cost-effective way to migrate to modern digital radios.

- Charger (with Base), Battery, Belt Clip, Antenna

BD502i Two-Way DMR Radios

Compact UHF and VHF BD5i Series radios provide cost-effective and easy-to-use radio communications with excellent performance

Excellent Performance

The BD5i Series radios provide high-quality voice communications with an audio equalizer, and long battery life for up to 16 hours of operation. Excellent reception and digital encoding extends the range of operation. Optional Bluetooth (BD552i-BT) supports wireless audio accessories.

Light and Compact

Weighing less than 9 ounces, the light and compact design makes the BD5i Series easy to carry and operate.

Analog and Digital

Supports both analog and digital DMR operation and can automatically switch between the two modes. This provides flexible operation, and provides an easy and cost-effective upgrade path to digital systems.

Rugged and Reliable

The BD5i Series radios meet MIL-STD-810-G for shock and vibration, and are IP54 rated for dust and water resistance to guaranty reliability in harsh environments.
